

VOLCANOES AROUND THE WORLD

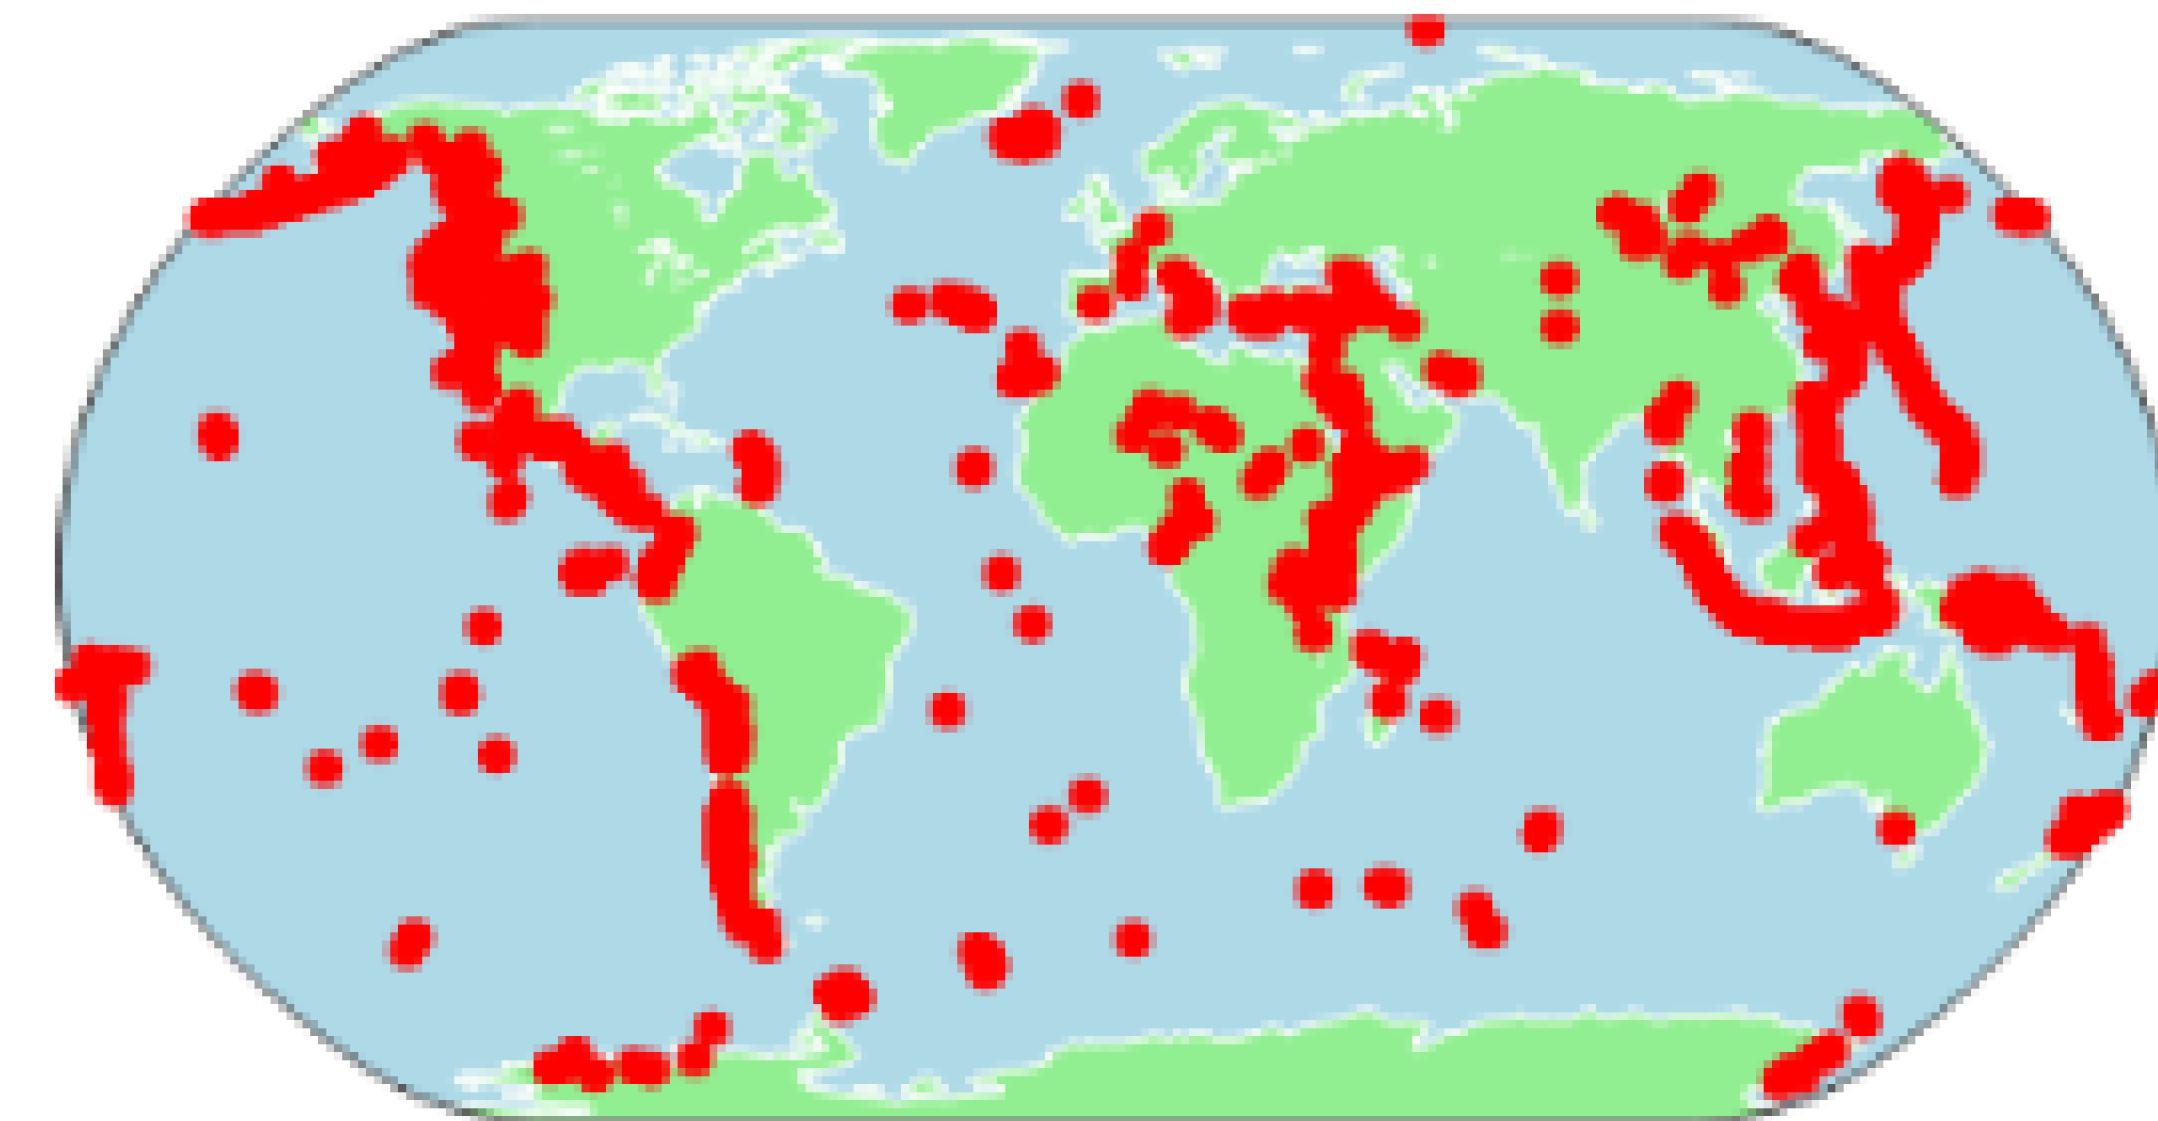

DATA VISUALIZATION

INTRODUCTION

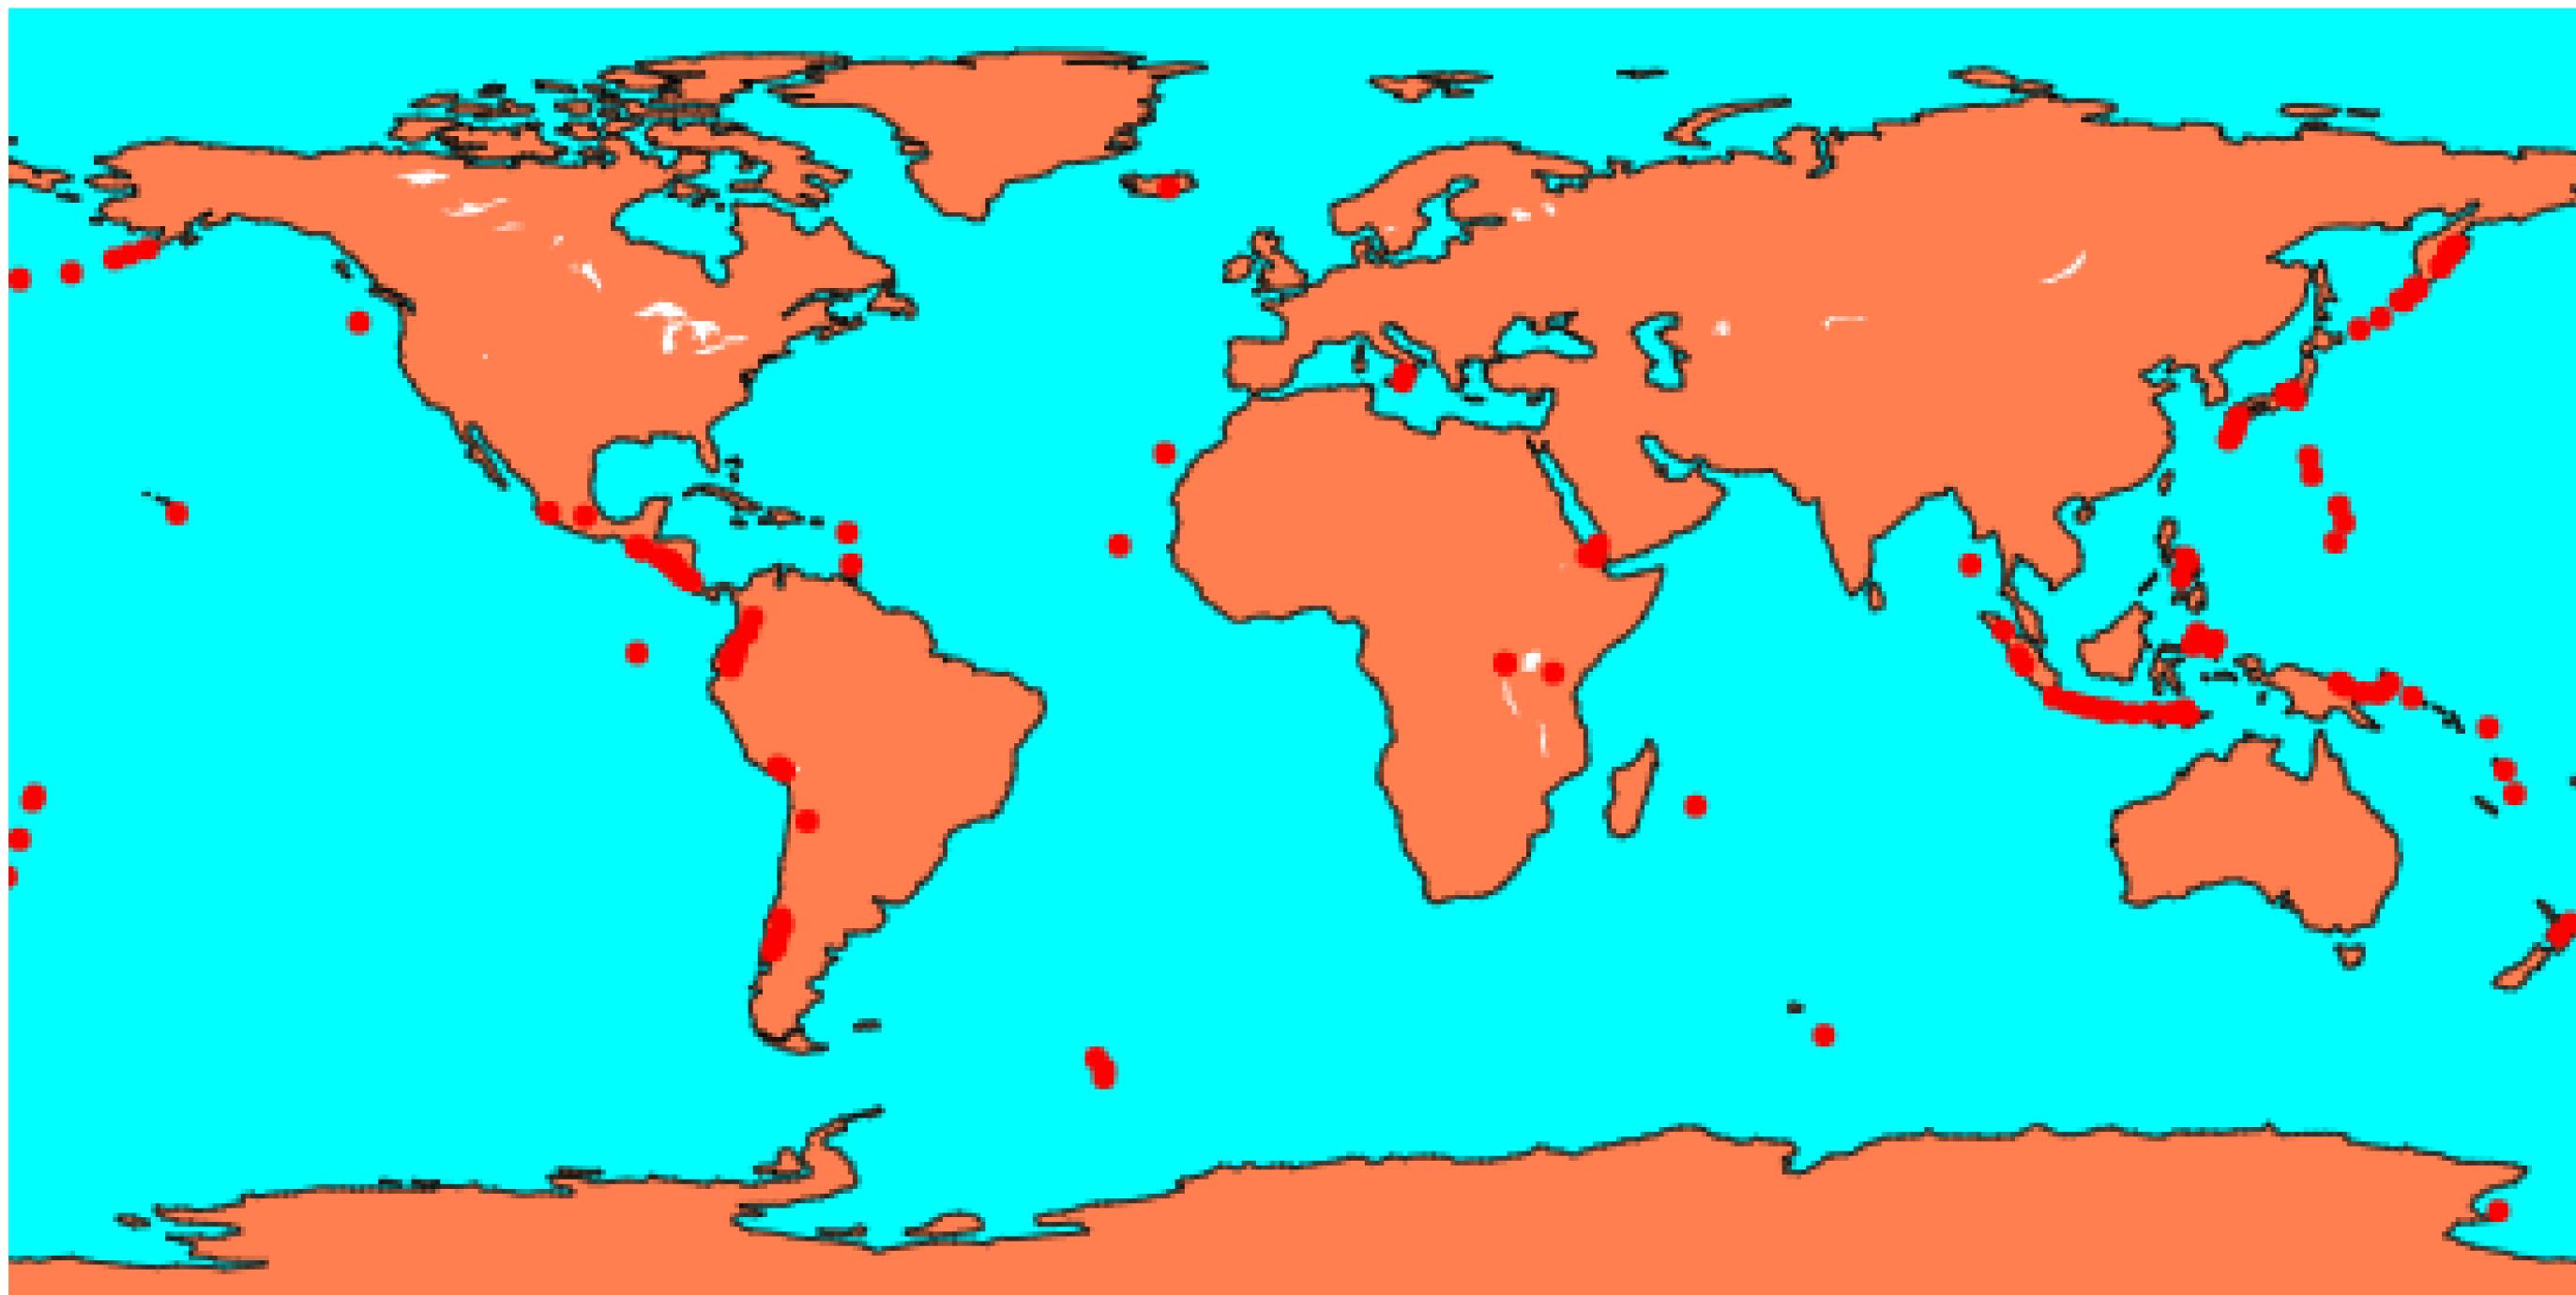

This report aims to explore the Volcanoes dataset to understand the distribution of volcanoes, their characteristics, and their potential impact. The dataset provides valuable insights into the locations, characteristics, and activity of volcanoes, allowing us to assess potential risks and develop mitigation strategies.

WHAT ARE THE RECENT LOCATION OF ERUPTION ?

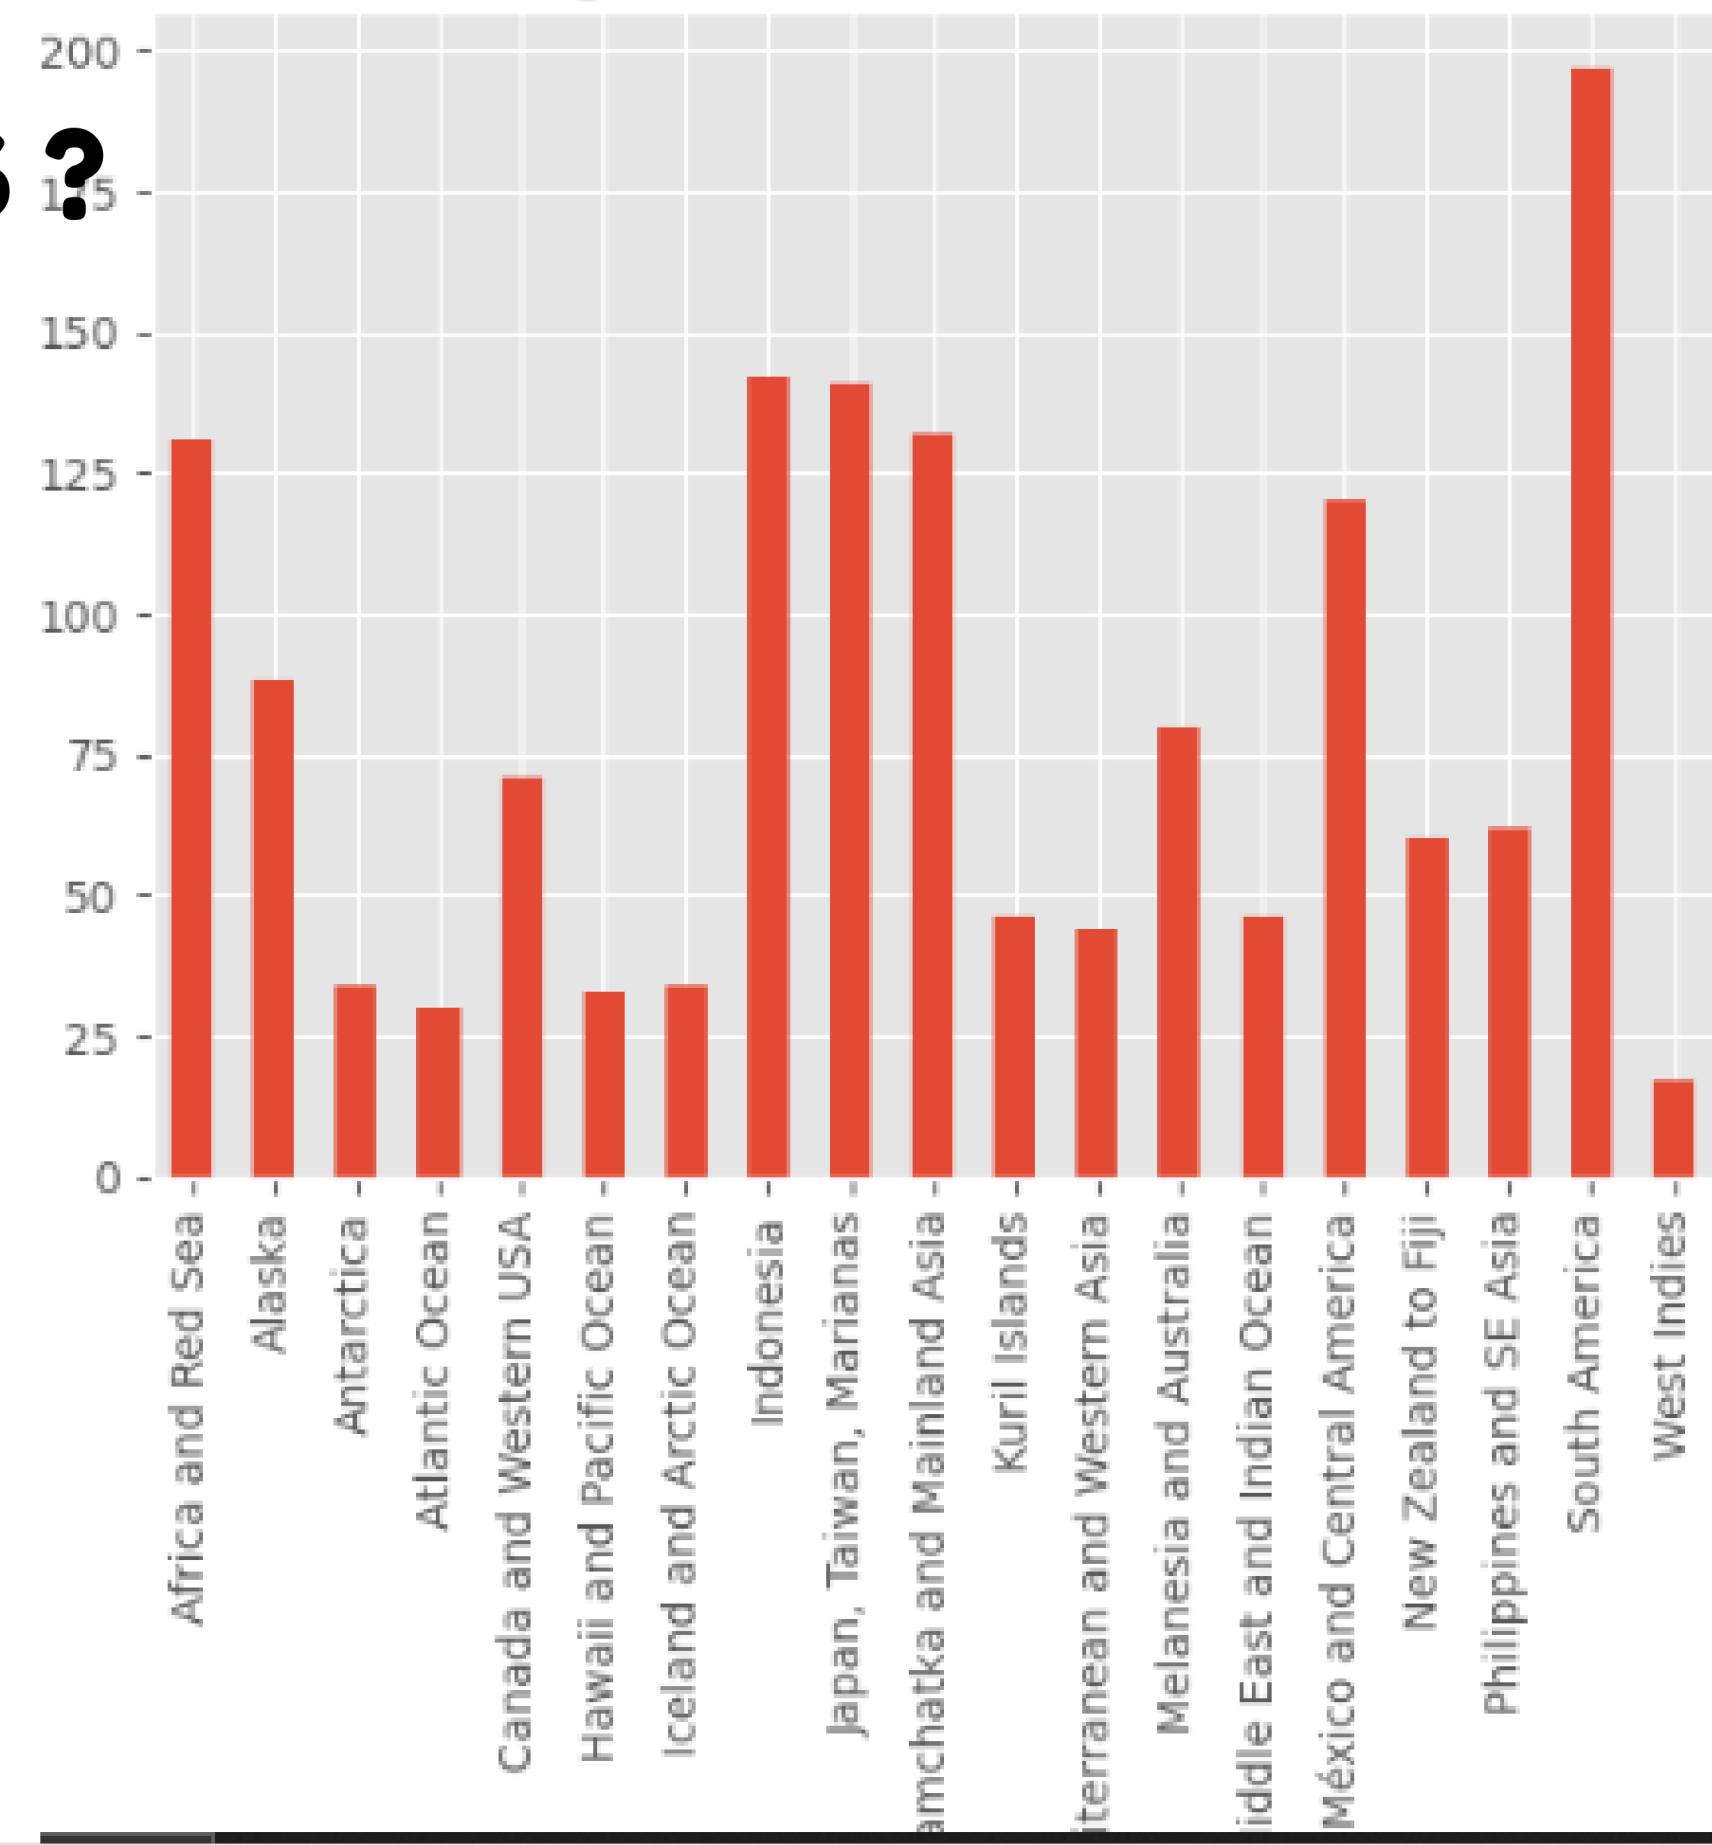

WHAT ARE THE RECENTLY ACTIVE VOLCANOES (2012-2016) ?

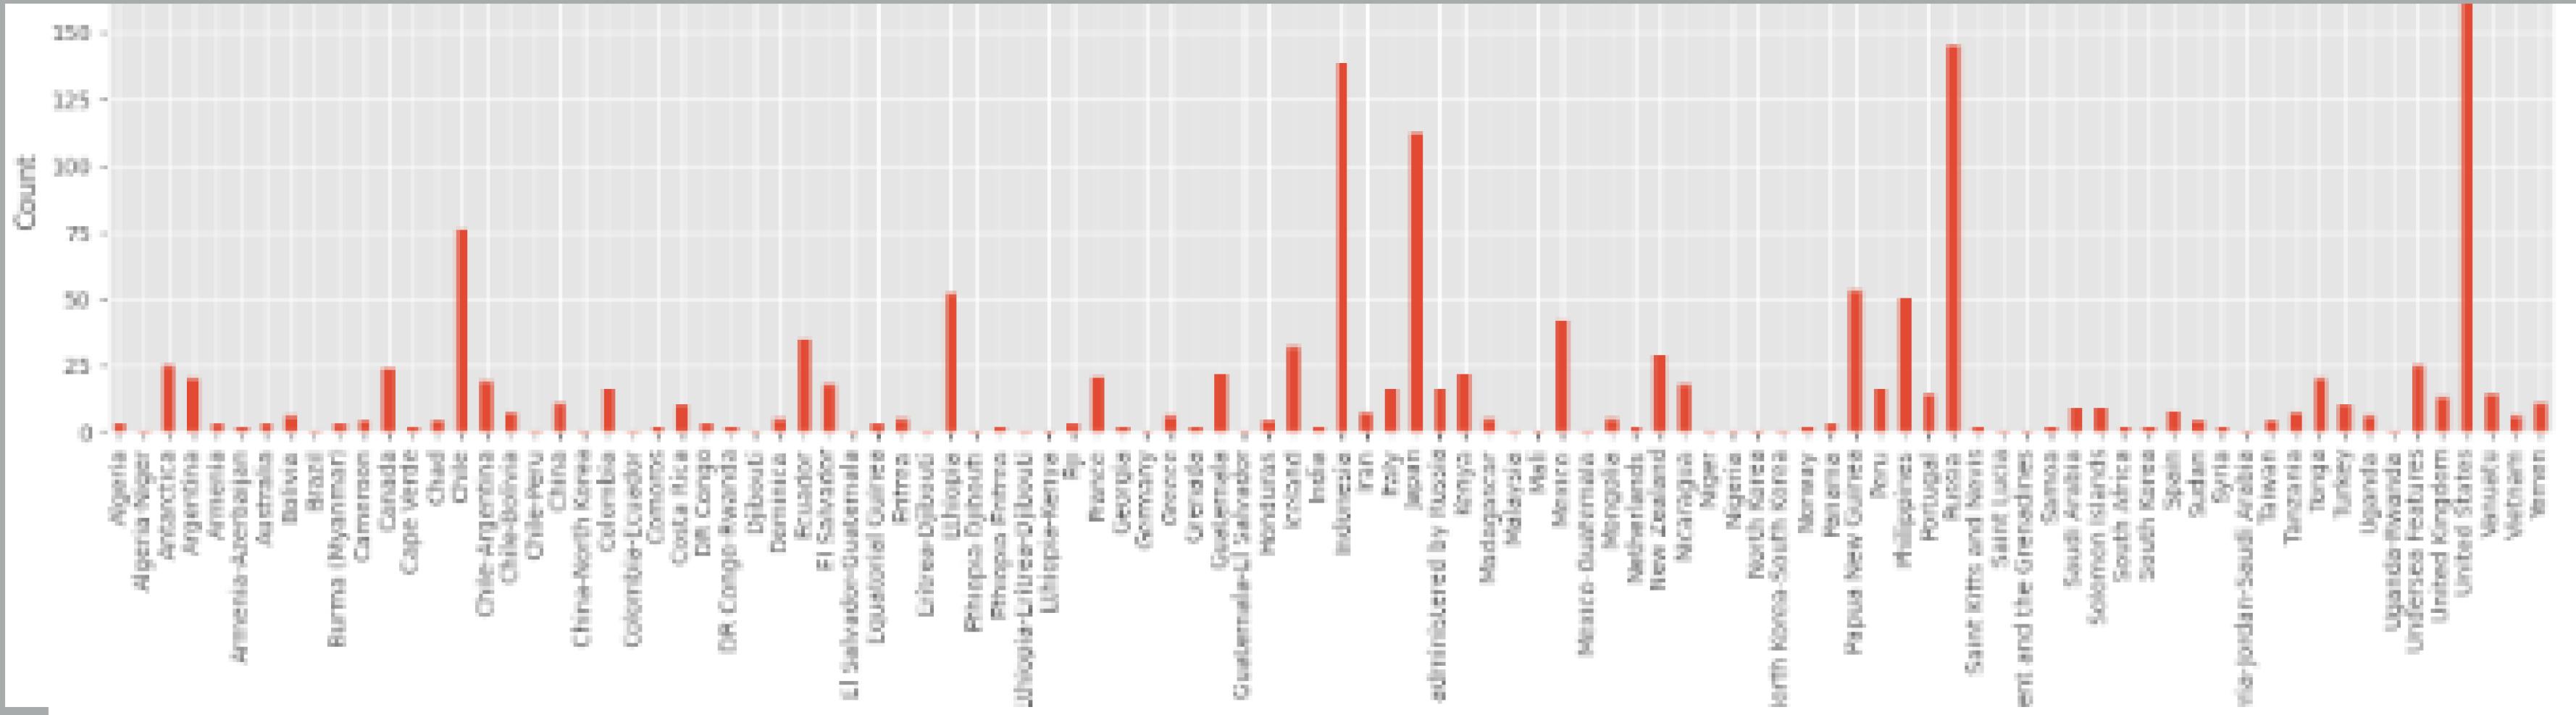

WHAT IS THE TOP 5 REGIONS WITH THE MOST VOLCANOES ?

Region	Count
South America	197
Indonesia	142
Japan, Taiwan, Marianas	141
Kamchatka and Mainland Asia	132
Africa and Red Sea	131

Region with most volcanoes

DISTRIBUTION OF VOLCANOES BY COUNTRY

Country	Count
United States	173
Russia	145
Indonesia	139

Country	Count
Indonesia	139
Japan	112
Chile	76

Thank you
